

## Privacy Study Carrel

Privacy Study Carrel features a spring-loaded metal plate to cover an optional electrical assembly with two electric outlets, two USB ports, and two jacks.

# Privacy Study Carrel

- » The Privacy Study Carrel features panels that are constructed from 1" thick particle board bonded to high-pressure laminate to stand up to heavy-duty use.
- » The work surface measures 29 1/2"W x 23 1/2"D with a 15"H x 29 1/2"W x 14"D area for a monitor. The top shelf holds speakers or other accessories and provides extra stability for the carrel.
- » Legs feature a double cut-out on the inside for routing cables.
- » The Privacy Study Carrel now comes standard with a built-in hinged metal plate to cover a specially designed electrical assembly.
- » The electrical assembly is available separately, and includes two outlets, two jacks, and two USB ports, enabling easier computer hook-up.
- » Available with a black metal frame with teak laminate.
- » An optional light to provide a brighter work area is available separately and mounts under the top shelf.
